

OTB Solar BV, Eindhoven, The Netherlands, a leading supplier of Turn Key In Line Multicrystalline and Monocrystalline Solar Cell Production Systems (LINEx 1500 and LINEx 1400) and Anti Reflection Deposition Equipment and Process Technology (The DEPx Product Family, DEPx 1500, DEPx 1000, DEPx 750) announces the sale of DEPx 1500 Silicon Nitride Deposition Equipment to Solar Power Industries of Belle Vernon, Pennsylvania. The DEPx 1500 will be integrated into Solar Power Industries proprietary cell production process starting in Q4, 2007. The DEPx 1500 features high throughput, excellent layer uniformity and surface passivation, low maintenance requirements within an industry leading minimal foot print for space consumption. For additional information concerning the DEPx and LINEx Product families from OTB Solar, please contact:
